PROJECTS

[Reach](#) | Front End Developer | **JavaScript, React.**

- Contributed to the development of a web application that brings awareness and connects customers to minority and women-owned businesses in NYC.
- Designed the wireframe of the application and used React.js to help develop the front-end and display data.
- Utilized NYC Open Data database to query data of minority and women-owned businesses.

[MacroCounter](#) | Developer | **Java.**

- Developed an Android application that allows users to easily track their daily macronutrients by inputting their food intake.
- Integrated Google Firebase for user verification and authentication.
- Utilized the Edamam Food API to retrieve and parse through data when the user searches for a particular food and displays the nutritional values of said food.

[Trilogy URL Copier](#) | Creator and Developer | **JavaScript, HTML, and CSS.**

- Currently has a 5-star rating and approximately 20 users in the Chrome Web Store.
- Fully functional chrome extension that makes copying and sending URLs easier for users.

EXPERIENCE

All Star Code, NY

July 2019 - August 2019

Student

- Selected out of 500+ candidates to learn fundamental computer science skills.
- Led a team of four to create a chrome extension called [Trilogy](#) and presented it to approximately 60 people on Demo Day.

VOLUNTEER

New Horizon Foundation, NY

Sept. 2020 - Present

Volunteer/College Intern

- Delivered food to 50 families in Downtown Yonkers.
- Assisted hundreds of Yonkers residents in registering for the 2020 Census
